5,000 CARS SHORT

HEAVIEST SHIPMENTS IN HISTORY OF O. R. & N.

Enormous Crops, Revival of Lumber Trade, and Oriental Shipments Mostly Responsible for the Congestion of Freight—Sixty Engine Crews Are Working on the Mountain Division—All the Other Transcontinental Lines the Same.

It is estimated that orders for 5000 cars which cannot be filled have been received by the O. R. & N. system. Never in the history of the road has there been such heavy shipments of freight, both local and foreign. Every available car is in use, loads are being rushed over the line and the empties hurried back more rapidly than ever before.

The enormous amount of Oriental freight going east, the unusual shipments of Oregon wheat and flour to the east and the revival of the lumber trade on the Sound, all add to the congested traffic. Double yard crews are working at Umatilla to handle the immense freight business at the junction of the Washington and Oregon divisions, and at every terminal along the line, trains are made up and hurried on as never before. Nineteen freight crews are working out of La Grande, 60 engine crews on the mountain division are battling with the unending succession of trains and helper forces have been increased to hurry the traffic over the mountains.

The O. R. & N. is not alone rushed with the heavy traffic, but all the other transcontinental lines are enjoying the same immense business. heretofore it has been possible for western roads to borrow almost any number of cars for the fall rush, from the Rio Grande, the Union Pacific, the Rio Grande Western and other roads having large numbers of cars, but this is out of the question this year. Every road in the country has tried to borrow of every other road, and still the orders for cars pile up along the line.

FIREMEN'S ELECTION TONIGHT.

Regular Annual Election at Recorder's Office From 7 to 9 O'clock.

The regular annual election of Pendleton fire companies will be held tonight, the polls being open at the city recorder's office from 7 to 9 o'clock.

The boys are taking great interest in the election. Two excellent men are running for chief, J. T. Brown and D. D. Phelps, and both are now certain of victory. Ed Stansbury is the only candidate for first assistant chief and Joe Nolf for second assistant chief.

The companies are in excellent condition and the work is increasing in efficiency every month. Better attendance is shown, more promptness and alertness is exhibited and the boys are better organized than ever before. It is declared by old members. The election of the new chief is therefore of the highest interest to the company and a full vote is earnestly requested.

COLD AT KAMELA.

Lower Temperature Saturday Night Than at Any Time Last Winter.

The thermometer went down to seven degrees below zero at Kamela, last Saturday night, a lower temperature than was reached at any time last winter. There is little snow yet, and the ground is frozen several inches deep.

Usually at this time of the year several feet of snow has fallen at the summit, but this season the fall has amounted to but 10 inches altogether, and none of that has remained on the ground.

Mammoth Jack to Gross Valley.

A. C. Ruby & Company, importers of fine horses and jacks this morning shipped one of their mammoth Missouri jacks to Gross valley, Wasco county. The animal weighed 1100 pounds and was one of the finest ever brought to Oregon. These animals have been admired by Umatilla county horsemen and there are now several prospective buyers for the remainder of the jacks on hand. Mr. Ruby says the natural advantages of Umatilla county as a mule raising country surpass those of any other district on the Pacific coast.

Fire in Residence.

Quick work by the Pendleton fire department this morning saved the residence occupied by J. H. Nolf and J. S. Beckwith at 816 East Bluff street, from destruction. Fire caught, it is thought, from a stovepipe and burned the walls and a small amount of goods. The fire companies responded quickly and laid a line of hose to the house, but it was not used, the flames having been extinguished before getting beyond control. The residence was not damaged to any extent.

7000 TONS OF BEET PULP.

Stockmen Will Fatten Cattle on it for Early Spring Market.

Over 7000 tons of beet pulp remain from the two months run of the La Grande factory this year, and already stockmen are contracting for the pulp as feed.

One-third of the weight of the beets is comprised in the pulp, and the continued tests of this residue as a fat producer has convinced Grand Beets stockmen that it is a cheap and rich feed, when mixed with hay and a small amount of grain.

Jeff Bull, of La Grande, Brown and Proffit, of Baker City, and J. A. Russell, of Island City, have practically contracted for all the pulp produced this season, and will feed several hundred head of cattle near the factory, for the early spring market.

Cattle must be educated to eat the pulp, as many of them refuse to touch it at first. After it passes through a process of heating or fermentation, the fat producing qualities increase, and tons of it is shipped to North Powder, Baker City, Huntington and other points as feed for dairy cows and calves.

MEET JANUARY 9.

Presidential Electors Will Be in Salem on That Date.

The four republican presidential electors, chosen at the November election, will meet at Salem the second Monday in January and cast their ballots for president of the United States. Act of congress of February 3, 1887, provides that electors meet on the second Monday in January. The result of the vote of the electors will then be forwarded to the secretary of state at Washington, D. C., where all the votes from the several states will be canvassed.

"The electors chosen," said Judge James A. Fee, of this city, one of the electors, "have the privilege of all going to Washington when the votes are submitted to the secretary of state."

Knights of Pythias Organ Changes Ownership.

Articles of incorporation have been filed at Salem, where the paper is to be published in the future. J. W. Maloney, of this city, is named as one of the incorporators.

L. R. Stinson, of Salem, grand keeper of the records and seal, and Frank S. Grant, a prominent Portland attorney, will do most of the editorial work on the new Senator.

Berryman, father of County Assessor Berryman, and one of the inspectors of election at Hadley, called at the Evening Statesman office this morning and said that he desired to register a kick against the allegation made by James Cusker in his complaint in the contest case filed in the court Thursday. He said: "The election was conducted in an honest manner and there were no irregularities whatever. There was no dispute over any ballot and the count was fair in Hadley precinct."—Walla Walla Statesman.

Morrow's Wheat Crop.

From the best information obtainable from warehousemen and farmers, Morrow county's wheat crop this year will reach a total of \$1,400,000 bushels. The yield being estimated at 25 bushels to the acre, would indicate that there were 92,333 acres in wheat this year. It is estimated that 1,300,000 bushels will be exported, 100,000 bushels being required for home consumption, the bulk of the amount kept at home being used for seed.—Heppner Gazette.
